THE MINIATURE PINSCHER CLUB

PENCIL MARKS

WINTER 2011

PRESIDENTS PEN

Again, many thanks go out to the support of our Club Members, especially in this difficult climate, with the rising cost of our bills, also a Big thank you must go to our Committee Members and Officers who give up their time freely and willingly to make a successful running of the Club and all of its events.

I found it very touching and a very kind gesture of a family collecting their loose change to help Min Pin Rescue, and even more so, things sent from a Family of a Deceased Member to raise funds for the Rescue, thank you, this is very kind of you all.

It has been a year to remember possibly for all of us, especially for myself and Donald, as our Daughter, Katie and partner Scott produced us with a beautiful Grandchild, named Sofia, who arrived safely, Mum and Baby are doing well. So many Members will remember our little Katie running around the shows helping! How time flies!

We have had an exciting time for Min Pins, we have invested in new ventures with different members of the Club. We have imported some new bloodlines from the USA,, and other Members have imported from Europe. We are hoping that this will help make an improvement to our breed and make it stronger and better.

As I mentioned last year, with the Internet, it makes the world a lot smaller place, this helps us to look up and be able to contact different breeders and owners all over the World and learn a lot of different things about the breed that we love so much.

I would like to wish you all the best for the coming year, with good sportsmanship in, and around the ring, and of course a Very Happy Christmas and New Year to you all.

Best Wishes.

Heather

Secretarial Scribblings

Dear Members

It's now November and winter is certainly upon us!
I am sure we are all feeling the pressure of the present economic climate and I know that any meager savings I might have had this year will quickly be swallowed up by the kennel central heating bill!
Entries at shows are lower as people realize that it is just not viable to pay for entries and fuel to travel hundreds of miles.
Scottish exhibitors are finding ways to squeeze as many people and dogs into a car as possible to keep exhibiting ... but for how long? I know I will have to show less dogs and attend less shows ... but strangely I feel quite resigned to this! Perhaps it's my age ☺
The Kennel Club has announced a huge drop in the number of registrations overall and the Breed Records Supplements for this year seem to echo that trend in Min Pins as well. I have seen Min Pin puppies advertised at half the price they were selling for last year, which is a disturbing trend, especially as they seem to be unregistered. Min Pin Rescue is certainly not dealing with less dogs. Indeed Susan has her hands full and is very rarely without a full house.
You will have noticed that the newsletter is now an annual rather than bi-annual event. There are a couple of reasons for this - one being the spiraling costs of production but also the fact that we struggle to get news and articles from members. Please help by giving Di Gentle any interesting and informative articles you find or indeed produce and stories about your Pin in particular, to make the newsletter a members' production rather than the editor's!
For those of us who have succumbed to the internet, the Club has it's own website - www.miniaturepinscherclub.co.uk - ably run by Liz Porteous-Thomson. We would welcome feedback and ideas for additions and improvement.
Can I remind you that subs are due on 1st January. These were increased at the AGM to £10.00 joint and overseas, £7.00 single and £2.00 junior.
Please make cheques payable to 'The Miniature Pinscher Club' and send them to me at 'Bridgeholm', New Trows Road, Lesmahagow, South Lanarks. ML11 0JS.
To avoid becoming a 'lapsed' member (through forgetting to renew subs before the end of February) and having to rejoin the Club - you can make arrangements with the Club Treasurer, Susan Colborne-Baber - to pay by standing order. I may even manage to produce a form in this newsletter!

Finally, I would like to wish everyone and their Min Pins a very happy festive season and best wishes for the New Year. 🍸

Harriet

A LETTER FROM THE EDITOR

Another year nearly over, I hope that it has been kind to you all and if it hasn't I hope that 2012 brings you better things.

Of course we may not have met up with each other at all the shows, I think that this is due to the rising cost in show entries and of course petrol costs, but it is lovely when those of us who are able to caravan can get together and spend some time with each other and our dogs, and have a good time.

There have been some great group placings for Min Pins this year, it is really nice to see Min Pins being recognised, although they are not a "fluffy" toydog, they are just as affectionate and loving as any other Toy Breed, although a bit if a handful sometimes!

It has been really good to see new Min Pinners coming along to the shows, I hope you enjoy showing your little people and please feel free to ask any of us "older" Min Pinners anything you need to know, as a Club we are always here to help.

As many of you know, we are now only having one Newsletter a year, this is down to printing and postage costs, sadly the way of the world at the moment, everyone is trying to cut costs. I know that I bang on about it every time I write my letter, but PLEASE send me something! Now we only have one a year, I will be hoping for all I can get and lets make it worthwhile. The more we get, the better it will be and it will give you a chance at the end of the year to show your dogs off and what they have won.

I would like to wish you all a very Merry Christmas and a Happy and Healthy 2012.

Di

The Miniature Pinscher Club Annual Trophies

These are on offer for points gained from placings at shows (breed classes only) throughout the year 1st January to 31st December.

The Daleviz Cup - Championship Shows Only

Points as follows

First	6
Second	5
Third	4
Reserve	3
VHC	2

The Wawocan and Hayclose Trophies

Championship and Open Shows where the breed is scheduled.

First	5
Second	4
Third	3
Reserve	2
VHC	1

The Wawocan Trophy is for the Min Pin gaining the highest number of points for the year. The Hayclose Trophy is for the highest number of points gained by the opposite sex to the Wawocan trophy winner.

Please send your claims to The Secretary: Mrs H McLean

Judge elect Mr C Sparrow (Casarow)

Increase in Subscriptions

It was agreed at the AGM that the annual subs would be increased as follows:
Single membership £7 Joint and overseas £10 Junior £2

Please remember this increase when renewing for 2012!

In order to allow members to set up a standing order with their bank so that subs are automatically paid annually, I am making the Club's account details available as follows.

Bank Account Lloyds TSB 03062834

Sort code 30-91-60

At this time I am unable to provide D/D forms but hope to be able to in future.
Please inform Susan or myself if you are paying by standing order.

Discover People by Elliott

The other weekend , me and Prudence had a very busy time. The Mums got us up while it was still dark so we thought we was going to a show, but then they packed Uncle Boy, who's much too old to go to shows (I heard that- and I'll have you know I'm only seven and a half and in my prime – Boy) and his nephew George, who doesn't like showing cos he's a wimp (No I'm not – I'm just modest and retiring – George), and we really knew it wasn't a show when Violet sat on Mum's lap in the front seat (Not my Mum's lap cos she was driving but Prudence's Mum's lap), cos Violet is much too small to go to shows..

Anyway we went in the big car for ages and then we stopped and the Mums got out and put our boxes on to a trolley and then my Mum drove away in the car. We went in the trolley into a very noisy building with lots of dogs that we don't usually see cos they're not toydogs, and then we went to have a wee and then came back and my Mum was there and there were lots of pictures of Min Pins – lots of baby ones and grownup ones doing things and one of Boy's great-great-great grannie having a bath in a thing called a bidet when she got mucky on the beach – for some reason people laugh at that one.

All five of us played in a big pen and we had a bed in the corner where we could have a rest when we wanted to – me and Prudence and Boy worked out that we could pose on the bed and everyone took pictures of us.

After a bit lots of people came in with lots of little people – the Mums told them all about us and Min Pins and they all wanted to stroke us and cuddle us – Uncle Boy told us that we had to be good and not wriggle or bite so we was all very good and we let them touch us and stuff.

My favourite one was a lady in a chair with wheels – my Mum saw that she could not get near enough to touch us so Mum took me round to sit on her chair and I cuddled up to her for a nice long time.

After lunch Prudence went off with her Mum to have some filming done – she said she was so good that the film people are going to give us a big bag of nice food, we will have to look on their website next month to see if she really was good (Royal Canin).

The Mums were trying to spot famous people but all they saw was someone from 'The Bill' and that dog from 'Midsommer Murders'

After ages and ages the people stopped coming round and we all went home – we had a lovely long sleep in the car and so did Prudence's Mum but my Mum didn't cos she was driving.

Next morning, b***** me we're off again! Same thing, same us, same place.

There was a strange thing in the middle of the morning – a big bell rang eleven times then everyone stood very still and no-one said anything for ages – we all stood still and were very quiet but a couple of big dogs barked a little bit. Then they all started talking again- someone said it was very moving but it wasn't cos we all stood still and nobody was moving

More or less the same people and little people but this time my Mum took me on my lead to a big ring and we watched Daisy Mae and her Mum (Collypins What's Occurring JW and Cindy Collinson)

in a 'normous class of other dogs with JW after their names. Daisy Mae looked very smart but the judge had no taste and picked other dogs instead. Then Mum and me walked around and lots of people stopped to talk to me; I met a St Bernard who was very very big. Then we went back and got stroked and cuddled a lot – that's me not Mum, and then when it was all over we went home again.

I think it was call Discover People – we certainly did, hundreds of them and they was all nice.

Cast of Characters:

Elliott – Hawksflight Painted Pony for Kismul

Prudence – Hawksflight Painted Lady at Borneways

Boy – Ch Borneways Pomme Noir

George – Borneways Royal William

Elliot's Mum – Di Stark

Prudence's Mum – Susan Colborne-Baber

Violet – Violet!

"Shall we give first to the monkey or the Min Pin?!"
Ayla will be three years old at the end of February. Elvis is her favourite Min Pin, but I'm not sure he's too keen on the idea of junior handling! The Min Pin in the photo is a good substitute in the meantime though...

Sue, Robbie, Mandy & Julie & all the Impala Min Pins wish you a very merry Christmas & a happy, healthy & successful 2012. A donation to charity has been made in lieu of sending cards this year.

- JW Semi Finals at Earls Court 13/11/2011

  After qualifying at Plymouth & District C/S, Daisy Mae (Collypins Whats Occurring JW ShCM) and 63 other dogs were invited to compete in the Kennel Club JW Semi Finals at Earls Court. We were all sent packs with pass's/maps and pre paid car parking tickets a week before the event. We were also asked to supply photos of our dogs so they could appear in catalogue. Luckily the event is held on a Sunday in conjunction with Discover Dogs so no congestion charging, our journey up was very good and once in London we found our car park very easily and it was just a short walk to Earls Court.

  As we arrived we were asked to register and were given our goodie bags, dog treats, calendar and dog biscuit tin kindly supplied by James Well beloved. We also had our Certificates, qualifying rosette and exhibit numbers.
  Benching was very close to main ring so we had the bonus of watching the other events going on before the semi final started. We were split into two rings Ring 1 and Ring 2. Our judges for the day were Graham Hill (rg 1) and Martin Phillips (rg 2)

  We started promptly at 12.20pm; all dogs were called into their allocated ring and introduced one by one. We were in ring two, lots of spectators for both rings. After all dogs had entered Martin Phillips went around the ring and briefly looking at all dogs. We had already been advised of the order of events so as we left the ring the first three dogs would stay so Mr Phillips could go over them individually. As one finished, they could come out and one would go in. So there were only 3 exhibits in the ring at any one time. The quality of the dogs was superb, many already worthy Champions. It wasn't long before it was our turn, Daisy Mae did me proud even though she was slightly unsettled by the bouncy astro turf floor, Mr Phillips was very gentle and softly spoken whilst he examined her on the table for which I was very grateful . He asked us to move in a triangle using the whole ring which was great, we don't often get that much room, then a straight up and down and to finish moving back out the exit. After all the dogs were seen we were asked to come back in so the judge could shortlist. With 30 odd dogs in each ring it was a bit of squeeze, but we managed to have just enough room to stack ok.

  The judge shortlisted 10 dogs then he would choose 5 from them to compete in the final at Crufts 2012; it was the same procedure in ring 1 so there will be 10 in total for the final. Daisy Mae didn't make the shortlist however she showed her socks off, behaved impeccably so I couldn't have asked anymore of her. We both thoroughly enjoyed competing in this event and obtaining a JW then qualifying is an achievement in itself and I was very proud to be invited and to represent our breed. It was a super, well run, organised event by Kennel Club and they should be dually congratulated. One tiny criticism... would have been really good if they had a area of the astro that the dogs could practise on before they went into the ring just so it's not such of a shock for them on their feet.
  That takes nothing away from a very enjoyable and memorable experience. Thank you to all the staff on the day for being so helpful and informative.

  Cindy Collinson

a Healthy and Happy New Year from
Hugh Pat and the Schanchos.

Rule Changes

At this year's AGM, the following rule changes were proposed by committee and voted on by the membership. All changes were unanimously accepted by the members present and ratified by the Kennel Club when the annual returns were submitted.

The Club's up-to-date rules are included in this issue of the newsletter and supercede all other copies of the rules.

Harriet

Proposal by the committee that the following additions are inserted into the Club's rules

a) Joint membership will be restricted to one membership per person

b) Will apply to 2 people who are either married or in a relationship and living at the same address

c) Will apply to 2 people who own a dog registered with the Kennel Club in their joint names

The Miniature Pinscher Club

Patella (Kneecap) Testing Scheme

The Miniature Pinscher Club has introduced a testing scheme for Patella Luxation (Slipping Kneecap) which is a condition which has been known to affect the breed.

The Miniature Pinscher to be tested should be taken to the vet of your choice who will check the details of the dog against it's Kennel Club registration documents and confirm identification by microchip or tattoo.

Following examination of the dog using the Putnam (1968) Scoring System, the vet should complete and sign the form.

A copy of the completed form signed by the owner and the examining vet should be sent to the Club's health co-ordinator as detailed on the Putnam Scoring System document. If the owner agrees, the result will be included in the list of tested Miniature Pinschers.

The Club's aim is to have as many Miniature Pinschers as possible screened using the scheme but certainly, individual animals to be used in breeding programmes, should be tested prior to mating. The optimum age for testing is between 12 and 24 months but dogs can be tested from 12 months onwards with no upper age limit.

No anaesthesia or X-rays are required – just three essential but easy steps:

1. Have your dog micro-chipped or tattooed
2. Take your KC registration documents
3. Contact the Club secretary for a form or down load from the Club's website.

Please take advantage of this scheme to enable us to maintain the health of our Miniature Pinschers.

Di Gentle has asked me to write a few words about Min Pin Rescue. Well, where do I begin?

Over the years I have helped in rescuing about two hundred and fifty little people, many of them with problems which with Di Stark's help, we have been able to sort out, and many without problems, but for whatever reason have fallen on hard times. All of these dogs needed help and in the vast majority of cases we were able to give it.

One of these dogs was a little chap called Little Willie. He had been in the RSPCA kennels for about two years I think, and during that time has was stolen. He was eventually returned to them after three months, and of course nobody knew where he had been. I gather he had originally been seized by the RSPCA along with several other toy dogs and possibly some Staffies. This meant that he had to stay with them until the case was brought to court as evidence, and when it had been won, he could be put up for rehoming. This was done but the home did not work out and he was returned to the kennels once more. I do not know what his fate would have been, but I was contacted by a kennel girl who had looked after him for most of his time in the kennels, and she begged me to give him a chance as while he had been in the previous home he had nipped one or two people on the ankle. She felt that he was not a bad dog but needed more training and understanding than he had so far. Well, three days later Willie arrived here and I was struck by the sadness of him. It was just as if he had never been loved and because of that did not trust anybody. He crawled onto my lap but I was not allowed to touch his head or move quickly, and strangers were not allowed in at all. Gradually as time went by he learnt to be cuddled and particularly liked to post himself up your jumper if you were sitting in a comfy chair. By ignoring his bad behaviour and loving him when he was good he learnt that people could be rather nice and I began to think about rehoming him. Then a miracle happened. A lovely lady who had lost her Min Pin in very tragic circumstances came to see him and it was instant love. She came several times, and then brought her Son and Daughter, and I took Willie to see her. She had a little fluffy white rescued dog who thought Willie was the bees knees and the tow of them immediately became friends. Two weeks later I took Willie to stay with her for good and the reports that I am getting are super. She has to be careful about strangers coming into the house but I worked out a routine for her when this happens, and she now tells me that Willie is behaving really well and he is a joy to live with. The end of this story is very strange, because the lady lost a relative who had a little dog. The family tried to look after it but found it impossible so she said she would try as she was very happy to look after three little ones. When she went to collect it she could hardly believe what she was seeing. There in front of her was the sweetest little black and tan Min Pin Bitch. I gather that all of them are very happy together.

We have had another little girl who I refer to as B. She also came in as her owner had passed away. She was very withdrawn for a few days but gradually she began to come out of her shell, and I discovered one of the nicest Min Pins that I had ever had. She was loving, affectionate, funny and obedient and I grew to love her dearly. However a lovely came in for her with another Min Pin and I took her off the Sussex, where again they are delighted with her and I hope that she will be looked after and loved for the rest of her life.

As time goes by I am finding it harder to give these little people up as you love them all and they do pull at the heartstrings, but the best thing that we can do for them is to show them that people are nice, that they can be trusted, and hopefully find them better homes then, in most cases the ones they have left.

Susan Colborne-Baber

Lungworm – Is Your Min Pin at Risk?

Is your Min Pin inquisitive? Silly question, it wouldn't be a Min Pin if it didn't investigate everything thoroughly!

The parasite Angiostrongylus vasorum , which is otherwise known as lungworm , is carried by slugs and snails , so if your Min Pin swallows one of those in the garden there is a risk of infection with lungworm.

We used to think lungworm infection was rare and confined to small areas of the country, but in the last few years cases of disease have been reported in different areas, probably due to movement of dogs, cats and foxes but possibly also due to changes in the snail and slug population due to climate change.

Dogs, cats and foxes become infected by either eating whole slugs or snails, or by accidently eating them from outdoor water bowls , or from picking up toys that snails or slugs are on or possibly have merely crawled over

The lungworms have a two host life cycle – adult worms are found in the heart or lung blood vessels of infected animals – they lay eggs which hatch into larvae which the dog coughs up and swallows. The larvae then pass out in the dog's poo on to the ground. They are then eaten by slugs or snails which are then eaten by the next dog, and so the cycle goes on.

Symptoms of lungworm disease can easily be confused with other illnesses.

The dog may have breathing problems or may be coughing, getting tired more easily.

There may be blood clotting problems causing excessive bleeding from wounds, often seen when young dogs are neutered, nose bleeds, and anaemia.

In rare cases there may be fits, spinal pain,or behaviuoural changes or there may be general symptoms like weight loss , loss of appetite, vomiting and diarrhoea.

Young dogs under 2 years old are most often affected but any age dog can be at risk.

Diagnosis can be made by blood tests or by finding larvae in the dog's poo.

Treatment is by using a wormer which is specific for lungworms – there are several and your vet will advise you which one to use and also if there is a high risk of lungworms in your area
